

**Professional Skills Academy's vision** is to be the specialist learning provider of selective choices for our staff, learners and employers in North West England by never compromising on quality and always putting the learner first.

We pride ourselves on having a strong connection to National Awarding Bodies (City and Guilds and ILM). Our founder Michael Felse came from Senior Management in the ITC and Tech Train technology (ICT), engineering, marketing, health and care, finance, education and other training sectors where staff and learners undertook the developing of skills, knowledge and built trust, respect and behaviours within their chosen employment sector.

Our Mission is to build high quality and innovative solutions for business and for people by being close to employers, putting learner experience at the core and take our future learners and apprenticeships to build great places to work.

We work with private, public and third sector organisations to develop individuals to progress in their careers, develop their skills and help better transform their lives.

### **Mission**

- ▶ To provide the best possible opportunities for learners and in apprenticeships.
- ▶ To develop training and development upskilling opportunities for our staff and learners.
- ▶ To maximise the contribution made by Professional Skills Academy in building a socially responsible and innovative business and community proud society.

### **Key Objectives**

- 1 To increase the availability of training opportunities.
- 2 To provide flexible, quality, customer-orientated assessor services.
- 3 To become a centre of excellence for Training and Assessments.
- 4 To contribute to delivery of Local and Regional skills development.
- 5 To build a business framework, sustainable through training, assessor and verifier income generating activities by delivering best quality.
